contamination is variously caused by mercurial disease. low living, disordered digestion from analysis for the second serious of the second serious seri unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever he its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rol of Him who says, "I will visit the iniqui-ties of the fathers upon their children." The diseases which it originates take various name according to the organs it attacks. In t lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings while suppurate and become alecrous sores; in the stomach and bowels, derangements which pro-

duce indigestion, dyspepsia, and liver complaints; on the skin, crimite and cutaneous affections. These all having the same origin, require the same remedy, viz. purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does con-tine virtues truly extraordinary in their effect upon this class of complaints, is indisparably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in Aven's Asimican Almanac, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief Those cases are purposely taken from all sections of the country, in order that every reader may have necess to some one who can speak to of its benefits from personal expe-Scrofula depresses the vital energies and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considera-tions has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of Aven's Sansapanitha, although it is composed of ingredients, some of which exceed the best of Sarsuparilla in alterative power. By

We know the public have been deceived by many compounds of Sarsapavilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is in-tended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.
